

"The financial technology market is ideal for innovative, scalable technology solutions. With high transaction volumes, compliance and regulatory challenges, technology is critical to effectively scale and manage business.

Our past success and current investments in the sector demonstrates our market leadership. Our roster of experienced CEOs, network of FinTech executives and focused investment strategy make us a truly value-added investor in this sector."

- Chris Sugden, Managing Partner  
609-873-9210 | csugden@edisonventures.com

Edison invests in software and tech-enabled solutions that target the financial services industry. We look for innovative business models across Securities / Capital Markets, Payments, Banking, Real Estate, Insurance and Consumer Finance. We partner with emerging growth companies where Edison's wealth of experience and network of contacts accelerate growth and build value for management and shareholders..
